Multi-Doc Interface

- First practiced by SI,
  adopted by CyberShuttle, PQO
- Less duplicate codes,
  less system potential defects.
- TSMC UI guideline compliant.
- Better system usability,
  e.g. tabs for multi-function

NetWeaver Scheduler

- First practiced by Lot Handling, adopted by CSS Project.
- MDBs as agent is easy to manage in cluster environment and sequential processing guaranteed.
- All Java EE 5 standard components.
- Scheduler API enable auto configuration, task monitoring and proactive alerting.

All About Productivity

- Multiple-Document Interface increases developers' productivity and users'.
- NetWeaver Scheduler increases administrators' productivity.
- Future work: Comprehensive handbook of how to practice Java EE 5 on NetWeaver 7.3
